OFFICE OF THE CHANCELLOR

3801 Campus Drive
Waco, Texas 76705

254-867-4891
254-867-3973

November 15, 2019

Honorable Greg Abbott, Governor
Honorable Glenn Hegar, Texas Comptroller
Sarah Keyton, Assistant Director, Legislative Budget Board
Lisa Collier, First Assistant State Auditor

Ladies and Gentlemen:

We are pleased to submit the Annual Financial Report of Texas State Technical College for the year ended August 31, 2019, in compliance with Texas Government Code §2101.011 and in accordance with the requirements established by the Texas Comptroller of Public Accounts.

Due to the statewide requirements embedded in Governmental Accounting Standards Board (GASB) Statement No. 34, *Basic Financial Statements-and Management's Discussion and Analysis-for State and Local Governments*, the Comptroller of Public Accounts does not require the accompanying annual financial report to comply with all the requirements in this statement. The financial report will be considered for audit by the State Auditor as part of the audit of the State of Texas *Comprehensive Annual Financial Report* (CAFR); therefore, an opinion has not been expressed on the financial statements and related information contained in this report.

If you have any questions, please contact Anju Motwani at 254-867-3895. Christopher Greenwood may be contacted at 254-867-3931 for questions related to the Schedule of Expenditures of Federal Awards.

Sincerely,

Michael L. Reeser
Chancellor & Chief Executive Officer

Texas State Technical College
Management's Discussion and Analysis
For the Year Ended August 31, 2019

Introduction

Texas State Technical College (TSTC) was established in 1965 as the James Connally Technical Institute (JCTI) of Texas A&M University to meet the state's evolving workforce needs. In 1969, the JCTI separated from Texas A&M and became an independent state system with a new name, Texas State Technical Institute (TSTI), and its own Board of Regents. As the demand for quality technical education continued to grow, extension centers and new campuses were established throughout the state of Texas. TSTI was renamed to Texas State Technical College in 1991.

TSTC has been in continuous operation for over 50 years, and has demonstrated stability and a strong financial base to support economic development in Texas. In 2015, TSTC's ten campuses were integrated to pursue single accreditation and align programs to better serve the state. TSTC is the only college in Texas to adopt a funding model based on student employment outcomes, aligning with its purpose of strengthening Texas with a highly skilled, technically competent workforce. TSTC is also the only state-supported multiple campus technical college in Texas. With a statewide role and mission, TSTC is efficiently and effectively helping Texas meet the high-tech challenges of today's global economy. To date, TSTC has graduated over 100,000 students into the State's workforce.

Overview of the Financial Statements

The objective of Management's Discussion and Analysis (MD&A) is to provide an overview of the financial position and activities of TSTC as of and for the years ended August 31, 2019 and 2018, with an emphasis on the current year. Management has prepared the financial statements and related footnote disclosures, along with this MD&A. The following discussion should be read in conjunction with the accompanying transmittal letter, financial statements, and note disclosures.

TSTC's financial report includes three primary financial statements: the Statement of Net Position; the Statement of Revenues, Expenses and Changes in Net Position; and the Statement of Cash Flows. The financial statements have been prepared in accordance with Generally Accepted Accounting Principles (GAAP) as prescribed by the Governmental Accounting Standards Board (GASB).

The financial statements are prepared applying the following principles and standards:

- Reporting is on the full accrual basis of accounting and all current year revenues and expenses are recognized when earned and incurred, regardless of when the cash is received or disbursed.

Texas State Technical College
Management's Discussion and Analysis
For the Year Ended August 31, 2019

- Depreciation and amortization expense on capital assets is reported as an operating expense on the Statement of Revenues, Expenses and Changes in Net Position. The historical cost of capital assets, net of accumulated depreciation and amortization, is reported on the Statement of Net Position.
- Revenues and expenses are categorized as operating and non-operating. Revenues from state appropriations, gifts, and investment income are reported as non-operating revenue in accordance with GASB Statement No. 35, Basic Financial Statements – and Management's Discussion and Analysis – for Public Colleges and Universities, as amended.

Financial Highlights

- TSTC's assets and deferred outflows of resources exceeded liabilities and deferred inflows of resources in 2019, resulting in a net position of \$161.0 million. Unrestricted net position, which may be used for future obligations, was \$51.7 million, or 32.1%, of total net position as of August 31, 2019.
- TSTC ended the fiscal year with an increase in net position of \$27.1 million, compared to a \$20.7 million positive change in 2018. The primary cause of the increase in 2019 is due to a supplemental appropriation of \$29.6 million received for the demolition and abatement of facilities on the Waco campus (per SB500), an offset of \$6.2 million additional expense for Other Post-Employment Benefits (OPEB), and a surplus from operations of \$3.8 million.
- In 2019, TSTC added over \$13.3 million in capital assets, however this was offset by disposals amounting to approximately \$12.2 million. The \$12.2 million includes the disposal of a leasehold improvement of \$7.6 million that was sold for \$5.0 million in 2019. TSTC continually makes new investments in capital assets.

Statement of Net Position

The Statement of Net Position presents the financial position of TSTC at fiscal year-end. Readers of this statement are able to determine the assets available to continue operations and the amount that TSTC owes to vendors, bond holders, and lending institutions. The Statement of Net Position provides an overview of the resources that are available to cover expenses. When revenues and other support exceed expenses, the result is an increase in net position. The change in net position is one indicator of whether the financial condition has improved or worsened during the fiscal year, but many other non-financial factors, such as enrollment, student retention, and condition of facilities must also be considered when assessing the overall health of TSTC.

The Statement of Net Position presents the assets, deferred outflows, liabilities, deferred inflows and net position of TSTC as of the end of the year. The net position section of the statement is reported by three major categories: Net

Texas State Technical College
Management's Discussion and Analysis
For the Year Ended August 31, 2019

Investment in Capital Assets, Restricted, and Unrestricted. The Net Investment in Capital Assets section presents TSTC's equity in property, plant, and equipment, net of accumulated depreciation and amortization, capital asset related bonds and other debt. Restricted Net Position is reported for amounts subject to constraints that are either externally imposed or imposed by law. Unrestricted Net Position is available for any lawful purpose of TSTC.

The following table reflects the Condensed Comparative Statement of Net Position for TSTC as of August 31, 2019 and 2018. The section below includes explanations and management's analysis of significant changes within the Statement of Net Position:

Texas State Technical College

Condensed Comparative Statements of Net Position

As of August 31, 2019 and 2018

	2019	2018	% Increase (Decrease)
Assets and Deferred Outflows of Resources			
Current Assets	\$ 121,479,334	\$ 91,403,522	32.9%

Total Liabilities and Net Assets	\$ 379,507,740	\$ 325,445,349	16.6%

Texas State Technical College
Management's Discussion and Analysis
For the Year Ended August 31, 2019

Current Assets

Current assets increased by \$30.0 million, or 32.9%, in 2019 primarily due to the legislative appropriation receivable, which includes the entire supplemental appropriation approved in May 2019 amounting to \$29.6 million for the abatement and demolition of certain facilities on the Waco campus. This project is anticipated to be completed over a six year period. A majority of the project will be the abatement and demolition of World War II era military housing units, but it will also include site reclamation and realignment of the campus. The overall increase in current assets was offset by a \$3.6 million decrease in cash and investments from spending bond proceeds and a \$5.0 million increase in accounts receivable for the leasehold improvement sold in Waco.

Non-Current Assets – Capital Assets, Net

Net Capital Assets decreased by \$9.7 million in 2019. Although there were additions to capital of approximately \$13.0 million, the overall net decrease was attributable to a leasehold improvement being sold, which caused a net decrease in capital assets of \$7.6 million, and total depreciation expense of \$15.2 million, which increased \$2.6 million from the prior year as a result of two new buildings added toward the end of fiscal year 2018. Major additions to assets in 2019 included: \$4.4 million for the University Center in Harlingen, approximately \$730,000 for the bookstore and dorm pods in Sweetwater that reverted to the College at the conclusion of a lease from The TSTC Foundation, \$4.2 million for various equipment including information technology servers and technical training tools, and approximately \$1.5 million for vehicles, airplanes and various building improvements and renovations.

Other Non-Current Assets

Other non-current assets consists of cash and investments from endowments funds. No new endowments were received in 2019.

Deferred Outflows of Resources

Deferred outflows increased by \$33.7 million, or 824%, in 2019 primarily due to the recognition of \$29.7 million in deferred outflows of resources related to the implementation of GASB 75 for OPEB. GASB 75 was first implemented in 2018, however, after the financial statement audit of the State's Consolidated Annual Financial Report (CAFR) was completed, the calculation for OPEB was revised which caused a drastic increase in deferred outflows, deferred inflows, and the related liability.

Texas State Technical College
Management's Discussion and Analysis
For the Year Ended August 31, 2019

Current Liabilities

Current liabilities decreased \$2.8 million, or 5.5%, in 2019. This decrease is a combination of accounts payable decreasing approximately \$1.2 million due to timing of vendor payments, and deposits payable decreasing \$1.8 million primarily due to a decrease in pilot training deposits.

Non-Current Liabilities

Non-current liabilities mainly consist of non-current portions of notes and loans payable, revenue bonds payable, net pension and other post-employment benefits liability, employees' compensable leave payable, and capital lease obligations. A decrease in long-term debt of \$9.3 million, or 8.1%, in 2019 was related to amortization and debt service principal payments. Other non-current liabilities increased \$26.5 million, or 130.4%, mainly due to a \$25.0 million increase in OPEB liability as a result of the State's change in the calculation method.

Deferred Inflows of Resources

Deferred inflows increased \$12.6 million, or 265.1%, in 2019 due to increases related to GASB 75 for OPEB of \$10.4 million, and pension obligations of \$2.2 million. Both OPEB and pensions have a netting requirement to net deferred outflows and inflows across measurement periods arising from the difference between projected and actual investment return.

Total Net Position

Total net position represents the residual interest in TSTC's total assets and deferred outflows of resources after liabilities and deferred inflows of resources are deducted. Total net position increased by \$27.1 million, or 20.3%, in 2019, as explained in the *Financial Highlights* section above.

Restricted Net Position

Restricted net position includes TSTC's grants subject to externally imposed restrictions governing their use as well as proceeds from the issuance of bonds. In total, restricted net position decreased by \$767,000 or 26.2%, in 2019 due to the expenditure of bond proceeds.

Unrestricted Net Position

Unrestricted net position increased by \$30.9 million, or 148.5%, in 2019 primarily due to the \$29.6 special appropriation received for the demolition of the housing facilities at the Waco campus.

Texas State Technical College
Management's Discussion and Analysis
For the Year Ended August 31, 2019

Statement of Revenues, Expenses, and Changes in Net Position

The Statement of Revenues, Expenses, and Changes in Net Position presents TSTC's revenues earned and the expenses incurred, regardless of when cash is received or paid. Activities are reported as either operating or non-operating. Generally, operating revenues are earned in exchange for providing goods and services. Operating expenses are incurred in the normal operations, including a provision for depreciation and amortization on capital assets. Additionally, TSTC relies heavily on revenue sources such as state appropriations and certain grants, which are required to be reported as non-operating per GASB Statement No. 35. Revenues are reported by major source, and expenses are reported on the face of the statement by functional categories as defined by the National Association of College and University Business Officers (NACUBO).

The following table reflects TSTC's condensed comparative Statement of Revenues, Expenses, and Changes in Net Position for the years ended August 31, 2019 and 2018:

Texas State Technical College

Condensed Comparative Statements of Revenues, Expenses and Changes in Net Position

As of August 31, 2019 and 2018

	2019	2018	% Increase (Decrease)
Operating Revenue	\$ 56,267,348	\$ 57,558,405	-2.2%

Texas State Technical College
Management's Discussion and Analysis
For the Year Ended August 31, 2019

Operating Revenues

TSTC's primary sources of operating revenues are tuition and fees and federal, state, and local grants. Net tuition and fees represents over 50% of operating revenues, and are reflected in the financial statements with associated scholarship discounts and allowances shown separately. Operating revenues totaled \$56.3 million in 2019, a decrease of \$1.3 million, or 2.2%. Although gross tuition increased by \$1.1 million, net tuition decreased by \$1.1 million. This decrease was due to a \$2.2 million increase in scholarship discounts and allowances, which was related to students receiving smaller refunds from financial aid as a result of increased tuition rates. Although enrollment stayed relatively flat compared to 2018, the increase in gross tuition of \$1.1 million, or 2.3%, can be primarily attributable to the change in the tuition structure implemented in 2017. The Board of Regents approved a shift in pricing structure for semester credit-hour programs from a conventional, cost-recovery model to a market-driven model in support of a comprehensive enrollment management strategy. This included a new, tiered pricing framework that segregated programs into different pricing tiers. This was first implemented during the Fall 2016 semester and revised in 2019 to include two additional pricing tiers. Tuition revenues in the years following the new pricing structure have increased moderately as a result.

Federal, state, local, and private grant revenues, representing 20% of operating revenues, are mainly received from governmental and private sources and are related to skills development and scholarship programs. These revenues stayed relatively consistent in 2019 at \$11.5 million.

Operating Expenses

Operating expenses totaled \$187.4 million in 2019, an increase of only \$47,500, or 0.03%, over 2018. Although overall operating expenses remained consistent with 2018, payroll related costs increased by \$6.0 million, or 19.33%, and depreciation and amortization expense increased by \$2.7 million, or 21.45%. These increases were offset primarily by decreases in materials and supplies of \$2.1 million, or 13.9%, and scholarship expenses of \$4.3 million, or 20.3%. The increase in payroll related costs is due to an increase in the other postemployment benefits expenses caused by the change in the calculation method of the newly implemented GASB Statement No. 75, *Other Postemployment Benefits* (OPEB) (implemented in 2018). The calculation method was changed to reflect retirees and active employees compared to only retirees presented in 2018. The increase in depreciation expense is primarily due to major assets added towards the end of 2018, which were depreciated for the first full year in 2019. The large decrease in scholarship expense is primarily due to the increase in scholarship discounts and allowances as explained in the operating revenues section above.

Depreciation and Amortization	15,243,248	12,551,248	21.45%
Total Operating Expenses	\$ 187,431,405	\$ 187,383,901	0.03%

Non-operating Revenues and Expenses

Certain significant recurring revenues and expenses are considered non-operating. TSTC's primary non-operating revenues comes from state appropriations, federal Pell grant revenue, and gifts. TSTC's major non-operating expense consists of interest expense and fiscal charges and other non-operating expenses. Legislative revenue increased by \$29.2 million, or 30.5%. The primary reason for this increase is due to the \$29.6 supplemental appropriation received for the facilities demolition explained above. As an agency of the state of Texas (versus a community college with a local tax base), TSTC's largest source of funding is state appropriations. TSTC is the most dependent on general revenues as a portion of overall funding compared to all other higher education sectors. Because of the anticipated pressures on the state budget and TSTC's vulnerability under such an environment, diversification of TSTC's funding mix is a critical strategy for sustainability of TSTC's mission.

Other Revenues, Expenses, and Transfers

Other revenues, expenses, and transfers is comprised of capital contributions, annual HEF capital appropriations, and net transfers for leased equipment from the Texas Public Finance Authority (TPFA). In 2019, a decrease in

Texas State Technical College
Management's Discussion and Analysis
For the Year Ended August 31, 2019

total other revenues, expenses, and transfers of \$18.2 million, or 65.2%, relates to a decrease in capital contributions by \$14.4 million due to a \$16 million donated Fort Bend facility included in capital contributions in 2018, and net decrease in TPFA transfers by 3.7 million due to fewer assets transferred to the College from TPFA.

Debt Administration

As of August 31, 2019 and 2018, TSTC had \$115.7 million and \$124.5 in outstanding debt, respectfully. Bonds payable represents the largest portion of the College's liabilities. All bonds related to financing of current and prior years' construction needs. The General Obligation Bonds maintain a credit rating of "AAA" and "Aaa" from two major bond rating agencies, Fitch and Moody's, respectively. The Revenue Bonds maintain a credit rating of "A+" and "A1" from the same bond rating agencies. More detailed information regarding the College's bonded indebtedness is provided in Note 5, *Long-Term Liabilities*, and Note 6, *Bonded Indebtedness*, in the accompanying Notes to the Financial Statements.

The TSTC Foundation

TSTC receives financial support through The TSTC Foundation, a 501(c) (3) non-profit foundation created to support TSTC. The Foundation has financed several debt-related projects for the construction or purchase of buildings at various campuses. The Foundation also assists TSTC by providing funding for scholarships and investing gifts and donations.

TEXAS STATE TECHNICAL COLLEGE (Agency 719)**NOTES TO THE FINANCIAL STATEMENTS****August 31, 2019****Note 1: Summary of Significant Accounting Policies****Entity**

Texas State Technical College (TSTC/College) is an agency of the State of Texas and its financial records comply with state statutes and regulations. This includes compliance with the Texas Comptroller of Public Accounts' *Reporting Requirements for Annual Financial Reports of State Agencies and Universities*.

TSTC has historically included four separately accredited colleges including TSTC Harlingen, TSTC Marshall, TSTC Waco, and TSTC West Texas. In June 2015, the Southern Association of Colleges and Schools Commission on Colleges (SACSCOC) approved the merger of the four colleges into a single, statewide college. This new, statewide college operates in 10 locations throughout the State of Texas. TSTC is the only state-supported technical college in Texas with multiple campuses. With a statewide role and mission, TSTC is efficiently and effectively helping Texas meet the high-tech challenges of today's global economy, in partnership with business and industry, government agencies, and other educational institutions. TSTC has high graduation rates, exceptional postgraduate success rates, and an outstanding record in graduating individuals from diverse cultural and socioeconomic backgrounds.

Component Units

No component units have been identified that should have been blended into an appropriate fund or discretely presented within this financial report.

Fund Structure

The accompanying financial statements are presented on the basis of funds, each of which is considered a separate accounting entity. The fund designation for institutions of higher education is Business-Type Activity within the Proprietary Fund Type.

Proprietary Fund Types**Enterprise Funds**

Business type funds are used for activities that are financed through the charging of fees for goods or services to the ultimate user. Institutions of higher education are required to report their financial activities as business type because the predominance of their funding comes through charges to students, sales of goods and services, and grant revenues.

Agency Funds

Agency funds are used to account for assets the college holds on behalf of others in a purely custodial capacity. Agency funds involve only the receipt, temporary investment, and remittance of fiduciary resources to individuals, private organizations, or other governments.

Basis of Accounting and Presentation

The basis of accounting determines when revenues and expenditures or expenses are recognized in the accounts reported in the financial statements. The accounting and financial reporting treatment applied to a fund is determined by its measurement focus.

TEXAS STATE TECHNICAL COLLEGE (Agency 719)**NOTES TO THE FINANCIAL STATEMENTS****August 31, 2019**

The financial statements of TSTC have been prepared on the accrual basis of accounting. Revenues, expenses, gains, losses, assets, liabilities and deferred inflows and outflows of resources from exchange and exchange-like transactions are recognized when the exchange transaction takes place, while those from government-mandated or voluntary non-exchange transactions (principally federal and state grants and state appropriations) are recognized when all applicable eligibility requirements are met. Internal activity and balances are eliminated in preparation of the financial statements unless they relate to services provided and used internally. Operating revenues and expenses include exchange transactions and program-specific, government-mandated or voluntary non-exchange transactions. Government-mandated or voluntary non-exchange transactions that are not program specific (such as state appropriations), investment income and interest on capital asset-related debt are included in non-operating revenues and expenses.

Budget and Budgetary Accounting

The budget of the State of Texas is prepared biennially and represents appropriations authorized by the legislature and approved by the Governor (the General Appropriations Act). Unencumbered appropriations are generally subject to lapse 60 days after the end of the fiscal year for which they were appropriated.

Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets, liabilities and deferred inflows and outflows of resources and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues, expenses and other changes in net position during the reporting period. Actual results could differ from those estimates.

Assets, Deferred Outflows of Resources, Liabilities, Deferred Inflows of Resources and Net Position**Assets****Cash and Cash Equivalents**

Short-term highly liquid investments with an original maturity of three months or less are considered cash equivalents. At August 31, 2019, cash equivalents consisted primarily of money market accounts.

Short-term Investments

Short-term investments consist of certificates of deposits (CD's) purchased from banks whose maturities do not exceed one year from date of purchase and investments in TexPool and TexasTERM (TexasDAILY), authorized AAAM rated government investment pools. The CD's are valued at cost. The fair value of the funds invested in TexPool and TexasTERM (TexasDAILY) are measured at amortized cost provided by the pool. The College may withdraw the funds from TexPool and TexasTERM (TexasDAILY) on demand.

TEXAS STATE TECHNICAL COLLEGE (Agency 719)**NOTES TO THE FINANCIAL STATEMENTS****August 31, 2019***Accounts Receivable*

Accounts receivable represent amounts owed to the College from private persons or organizations for goods and services provided. These consist primarily of amounts owed by students for tuition and fees, by sponsors, and by private organizations and federal and state government for grants and contracts. Accounts receivable is recorded net of estimated uncollectible amounts.

Restricted Assets

Restricted assets include monies or other resources restricted by legal or contractual requirements. These assets include proceeds of general obligation and revenue bonds and revenues set aside for statutory or contractual requirements. Assets held in reserve for guaranteed student loan defaults are also included.

Inventories

Inventories include both merchandise inventories on hand for sale and consumable inventories. Inventories are valued at cost, generally utilizing the last-in, first-out method. The consumption method of accounting is used to account for inventories that appear in the proprietary fund types. The cost of these items is expensed when the items are consumed.

Capital Assets

Equipment, vehicles and aircraft with an initial, individual cost of more than \$5,000 and an estimated useful life in excess of one year is capitalized. Buildings, infrastructure, facilities and other assets are capitalized when they meet the following thresholds set by the state:

Capital Asset Category	Threshold
Buildings and Building Improvements	\$ 100,000
Infrastructure	500,000
Facilities and Other Improvements	100,000
Software (Purchased)	100,000
Software (Internally Developed)	1,000,000

These assets are capitalized at cost or, if donated, at appraised fair value as of the date of acquisition. Depreciation or amortization is reported on all “exhaustible” assets. “Inexhaustible” assets such as works of art and historical treasures are not depreciated or amortized. Assets are depreciated or amortized over the estimated useful life of the asset using the straight-line method. Depreciation or amortization of capital assets is recorded as a periodic expense and accumulated as an offset to the asset book values. Depreciation or amortization of capital assets is based on allocation methods and estimated lives as summarized below:

Capital Asset Category	Useful Life
Buildings and Building Improvements	15-30 years
Infrastructure	15-30 years
Facilities and Other Improvements	10-23 years
Furniture and Equipment	3-15 years
Vehicles/Airplanes	5-10 years
Software	5 years

TEXAS STATE TECHNICAL COLLEGE (Agency 719)

NOTES TO THE FINANCIAL STATEMENTS

August 31, 2019

Deferred Outflows of Resources

TSTC reports the consumption of net position that is applicable to a future period as deferred outflows of resources in a separate section of its statement of net position.

Liabilities*Accounts Payable*

Accounts payable represents the liability for the value of assets or services received at the balance sheet date for which payment is pending.

Unearned Revenues

Unearned revenues represent tuition and fees inflows as of the end of the fiscal year which will not be earned until the subsequent fiscal year.

Employees' Compensable Leave Balances

Employees' compensable leave balances represent the liability that becomes "due" upon the occurrence of relevant events such as resignations, retirements, and uses of leave balances by covered employees. Liabilities are reported separately as either current or non-current in the statement of net position. These obligations are normally paid from the same funding source(s) from which each employee's salary or wage compensation was paid.

Capital Lease Obligations – Direct Borrowings

Capital lease obligations represent the liability for future lease payments under capital lease contracts contingent upon the appropriation of funding by the Legislature. Liabilities are reported separately as either current or non-current in the statement of net position.

Bonds Payable – General Obligation Bonds

General obligation bonds are accounted for in proprietary funds for business-type activities. These payables are reported as either current or non-current in the statement of net position. The bonds are reported at par, net of unamortized premiums, discounts, and gains/(losses) on bond refunding activities.

Bonds Payable – Revenue Bonds

Revenue bonds are accounted for in proprietary funds for business-type activities. These payables are reported as either current or non-current in the statement of net position. The bonds are reported at par, net of unamortized premiums, discounts, and gains/(losses) on bond refunding activities.

Funds Held for Others

Funds held for others represent assets held by the College on behalf of others in a purely custodial capacity, including funds owned by various student organizations and temporary holdings of student loan funds prior to disbursing to the students.

TEXAS STATE TECHNICAL COLLEGE (Agency 719)

NOTES TO THE FINANCIAL STATEMENTS

August 31, 2019

Deferred Inflows of Resources

TSTC reports the acquisition of net position that is applicable to a future period as deferred inflows of resources in a separate section of its statement of net position.

Net Position

Net position is the difference between assets plus deferred outflows of resources and liabilities plus deferred inflows of resources on the proprietary fund statements.

Net Investment in Capital Assets

Net Investment in capital assets consists of capital assets, net of accumulated depreciation/amortization, and reduced by outstanding balances for bonds, notes, and other debt that are attributed to the acquisition, construction, or improvement of those assets.

Restricted Net Position

Restricted net position results when constraints placed on the use of net resources are either externally imposed by creditors, grantors, contributors, and the like, or imposed by law through constitutional provisions or enabling legislation.

Unrestricted Net Position

Unrestricted net position consists of net resources that do not meet the definition of the two preceding categories. Unrestricted net position often has constraints on resources that are imposed by management but can be removed or modified.

Interfund Activities and Balances

The College has the following types of transactions among funds:

- (1) **Transfers:** Legally required transfers that are reported when incurred as ‘transfers in’ by the recipient fund and as ‘transfers out’ by the disbursing fund.
- (2) **Reimbursements:** Reimbursements are repayments from funds responsible for expenditures or expenses to funds that made the actual payment. Reimbursements of expenditures made by one fund for another are recorded as expenditures in the reimbursing fund and as a reduction of expenditures in the reimbursed fund. Reimbursements are not displayed in the financial statements.
- (3) **Interfund Receivables and Payables:** Interfund loans are reported as Interfund receivables and payables. If repayment is due during the current year or soon thereafter, the balance is classified as “current”. Balances for repayment due in two (or more) years are classified as “non-current”.
- (4) **Interfund Sales and Purchases:** Charges or collections for services rendered by one fund to another that are recorded as revenues of the recipient fund (interfund services provided) and expenditures or expenses of the disbursing fund(interfund services used).

The composition of TSTC’s interfund activities and balances is presented in Note 12, *Interfund Activity and Transactions*.

TEXAS STATE TECHNICAL COLLEGE (Agency 719)**NOTES TO THE FINANCIAL STATEMENTS****August 31, 2019****Cost-Sharing Defined Benefit Pension Plan**

TSTC participates in a cost-sharing multiple-employer defined benefit pension plan, Teachers Retirement System of Texas Plan (TRS/Plan). For purposes of measuring the net pension liability, deferred outflows of resources and deferred inflows of resources related to pensions and pension expense and information about the fiduciary net position of the Plan and additions to/deductions from TRS's fiduciary net position have been determined on the same basis as they are reported by the Plan. Benefit payments (including refunds of employee contributions) are recognized when due and payable in accordance with the benefit terms. Investments are reported at fair value.

Cost-Sharing Defined Benefit Other Postemployment Benefit Plan

TSTC participates in a cost-sharing multiple-employer defined benefit other postemployment benefit plan, Employees Retirement System of Texas Plan (OPEB Plan). For purposes of measuring the net OPEB liability, deferred outflows of resources and deferred inflows of resources related to OPEB, and OPEB expense, information about the fiduciary net position of the OPEB Plan and additions to/deductions from the OPEB Plan's fiduciary net position have been determined on the same basis as they are reported by the OPEB Plan. For this purpose, benefit payments are recognized when due and payable in accordance with the benefit terms. Investments are reported at fair value.

Revenues and Expenses

Operating revenues include activities such as tuition and fees, net of discounts and allowances; sales and services of auxiliary enterprises; most federal, state, and local grants and contracts; and interest income earned from operating activities. Operating revenues are classified as pledged to the extent that they are pledged as security for the College's bonded debt service. Non-pledged revenues consist of revenues that are not lawfully available to the College to be used for payments on bonded debt service. Operating expenses include salaries and wages, payroll related costs, materials and supplies, depreciation and amortization and scholarships. Non-operating revenues include activities such as state appropriations, federal student financial aid, insurance recoveries on property claims, and investment income. Non-operating expenses include activities such as interest expense on capital asset financing and expenses on capital assets not meeting the capitalization thresholds set by the State.

The appropriations of revenues by the Texas Legislature (Legislature) is in the form of general revenues. The Legislature meets every odd numbered year and approves a two-year budget (biennial) for all State agencies. The general revenue appropriations to the College supports the instruction, research and operation of the College. Appropriations also include payments made by the State on behalf of the College for benefits related to salaries funded by State appropriations. There is no assurance that the Legislature will continue its appropriations to the College in future years; however, the College expects that the Legislature will continue to do so.

When an expense is incurred that can be paid using either restricted or unrestricted resources, the college addresses each situation on a case-by-case basis prior to determining the resources to be used to satisfy the obligation. Generally, the College's policy is to first apply the expense towards restricted resources and then towards unrestricted resources.

TEXAS STATE TECHNICAL COLLEGE (Agency 719)**NOTES TO THE FINANCIAL STATEMENTS****August 31, 2019**

Financial aid to students is reported in the financial statements as prescribed by the National Association of College and University Business Officers (NACUBO). Certain aid (student loans, funds provided to students as awarded by third parties, and Federal Direct Lending) is accounted for as third party payments (credited to the student's account as if the student made the payment). All other aid is reflected in the financial statements as operating expense or scholarship allowances, which reduce revenues. The amount reported as operating expense represents the portion of aid that was provided to the student in the form of cash. Scholarship allowances represent the portion of aid provided to the student in the form of reduced tuition. Under the alternative method, these amounts are computed on an entity-wide basis by allocating cash payments to students, excluding payments for services, on the ratio of total aid to the aid not considered to be third party aid.

Scholarship Discounts and Allowances

Student tuition and fee revenues, and certain other revenues from students, are reported net of scholarship allowances in the statement of revenues, expenses and changes in net position. Scholarship allowances are the difference between the stated charge for goods and services provided by the College, and the amount that is paid by students and/or third parties making payments on the students' behalf. Certain governmental grants, such as Pell grants, are recorded as non-operating revenues and other governmental grants are recorded as operating revenues in the College's financial statements. To the extent that revenues from such programs are used to satisfy tuition and fees and other student charges, the College has recorded a scholarship allowance. The scholarship allowances on tuition and fees and auxiliary enterprises for the year ended August 31, 2019, were \$20,981,265.21 and \$3,557,269.61, respectively.

Collections

The College has collections of rare manuscripts and art that it does not capitalize. These collections adhere to the College's policy to (a) maintain them for public exhibition, education or research, (b) protect, keep unencumbered, care for and preserve them, and (c) require proceeds from their sale to be used to acquire other collection items. Collections maintained in this manner are charged to operations at time of purchase rather than capitalized.

Income Taxes

As a state institution of higher education, the income of the College is generally exempt from federal and state income taxes under Section 115(a) of the Internal Revenue Code and a similar provision of state law. However, the College is subject to federal income tax on any unrelated business taxable income.

Upcoming Accounting Pronouncements

- GASB Statement No. 83, Certain Asset Retirement Obligations, determines the timing and pattern of recognition on a liability and a corresponding deferred outflow of resources for asset retirement obligations (ARO) and requires disclosure of information about the nature of a government's AROs, the methods and assumptions used for the estimates of the liabilities, and the estimated remaining useful life of the associated tangible capital assets. This statement was implemented in fiscal year 2019. There was no impact to the College's financial statements.

TEXAS STATE TECHNICAL COLLEGE (Agency 719)**NOTES TO THE FINANCIAL STATEMENTS****August 31, 2019**

- GASB Statement No. 84, Fiduciary Activities, establishes criteria for identifying fiduciary activities of all state and local governments. This statement will be implemented in fiscal year 2020. The College is in the process of evaluating the impact this will have to the financial statements.
- GASB Statement No. 87, Leases, creates a single model for lease accounting. It requires recognition of certain lease assets and liabilities for leases that previously were classified as operating leases and recognized as inflows of resources or outflows of resources based on the payment provisions of the contract. This statement will be implemented in fiscal year 2021. The College is in the process of analyzing current operating leases to assess the impact of this statement. The College anticipates a moderate impact to the financial statements.
- GASB Statement No. 88, Certain Disclosures Related to Debt, including Direct Borrowings and Direct Placements, requires additional note disclosures relating to debt and clarifies which liabilities governments should include when disclosing information related to debt. Additional disclosures include unused lines of credit, assets pledged as collateral, and terms specified in debt agreements for significant events of default, termination, or subjective acceleration clauses with finance-related consequences. This statement was implemented in fiscal year 2019. The College saw a minimal impact to the financial statements. Additional disclosures were made to Note 5, Long-Term Liabilities.
- GASB Statement No. 89, Accounting for Interest Cost Incurred before the End of a Construction Period, requires that interest cost incurred before the end of a construction period be recognized as an expense in the period in which the cost is incurred for financial statements prepared using the economic resources measurement focus. As a result, interest cost incurred before the end of a construction period will not be included in the historical cost of a capital asset reported in a business-type activity or enterprise fund. This statement will be implemented in fiscal year 2021, or earlier if the State chooses to implement the standard early. The College anticipates a minimal impact to the financial statements.

(A)

(A)

(A) During FY 2019 a total of \$1,501.88 of adjustments pertaining to depreciation expense/accumulated depreciation for library book deletions has been reported in the "Additions" column above for Other Capital Assets. This differs from the "Capital Assets Note 2" generated by the State Property Accounting (SPA) system where this was reported in the "Adjustments" column only.

TEXAS STATE TECHNICAL COLLEGE (Agency 719)

NOTES TO THE FINANCIAL STATEMENTS

August 31, 2019

Note 3: Deposits, Investments and Repurchase Agreements

Texas State Technical College is authorized to invest in obligations and instruments as defined in the Public Funds Investment Act (Tex. Gov't Code Ann. Sec 2256.001) and the Uniform Prudent Management of Institutional Funds Act (Tex. Property Code Sec. 163.001) following the "prudent person rule". Such investments include (1) obligations of the United States or its agencies, (2) direct obligations of the State of Texas or its agencies, (3) obligations of political subdivisions rated not less than A by a national investment rating firm, (4) certificates of deposits, and (5) other instruments and obligations authorized by statute. There were no significant violations of legal provisions during the period.

Deposits of Cash in Bank

As of August 31, 2019, the carrying amount of deposits was \$27,672,548.69 as presented below.

Cash in Bank - Carrying Amount	\$ 30,183,867.94
Less: Certificates of Deposit included in carrying amount and reported as Current Short-term Investments	(2,038,209.44)
Less: Certificates of Deposit included in carrying amount and reported as Current Restricted Short-term Investments	(172,320.91)
Less: Certificates of Deposit included in carrying amount and reported as Non-Current Restricted Short-term Investments	(300,788.90)
Cash in Bank per Statement of Net Position	\$ 27,672,548.69
Proprietary Funds Current Assets Cash in Bank	\$ 24,187,760.37
Proprietary Funds Current Assets Restricted Cash in Bank	3,203,070.59
Proprietary Funds Non-Current Assets Restricted Cash in Bank	281,717.73
Cash in Bank per Statement of Net Position	\$ 27,672,548.69

The carrying amount consists of all cash in local banks and is included on the Statement of Net Position as a portion of cash and cash equivalents. Assets classified as cash and cash equivalents include \$34,246,758.12 that is invested in cash equivalents. The remainder of the cash and cash equivalents balance of \$6,574,209.43 is comprised of cash on hand and cash in the State Treasury. As of August 31, 2019, the College's total bank balance was \$30,971,368.99.

Custodial Credit Risks – Deposits

Custodial credit risk is the risk that in the event of a bank failure, the agency will not be able to recover deposits or will not be able to recover collateral securities that are in possession of an outside party. The College's policy is that all deposits are governed by a bank depository agreement between the College and respective banking institution. The agreement provides that the College's deposits, to the extent such deposits exceed the maximum insured limit under deposit insurance provided by the Federal Deposit Insurance Corporation (FDIC), shall at all times be collateralized with government securities.

State law requires collateralization of all deposits with federal depository insurance; bonds and other obligations of the U.S. Treasury, U.S. agencies or instrumentalities or the state of Texas; bonds of any city, county, school district or special road district of the state of Texas; bonds of any state; or a surety bond having an aggregate value at least equal to the amount of

TEXAS STATE TECHNICAL COLLEGE (Agency 719)**NOTES TO THE FINANCIAL STATEMENTS****August 31, 2019**

the deposits. As of August 31, 2019, the College had no bank balances that were exposed to custodial credit risk.

Investments

Chapter 2256 of the Texas Government Code, (the Public Funds Investment Act) authorizes the College to invest its funds under a written investment policy that ensures the safety of principal, provide liquidity and optimize return on investments within the constraints of safety and liquidity.

Certificates of Deposits - the College has assets held at various financial institutions throughout Texas in the form of CD's at rates ranging from 0.05-2.62 percent and maturities ranging from 12-24 months.

Pooled Investments - the College has assets held by TexPool and TexasTERM (TexasDAILY), authorized by AAAm rated government investment pools at rates ranging from 2.17-2.21 percent. These investments have no maturity and funds can be withdrawn on demand.

As of August 31, 2019, the College does not have any recurring fair value measurements. The following investments are measured at amortized cost, which is equivalent to the fair market value:

<u>8/31/2019</u>	<u>Amortized Cost</u>
Other Commingled Funds (TexasTERM – TexasDAILY)	\$ 12,554,427.52
Other Commingled Funds (TexPool)	777,915.89
Total Investments	\$ 13,332,343.41

Reconciliation of Investments to Statement of Net Position

Proprietary Funds Current Assets Short-term Investments	\$ 12,235,365.26
Proprietary Funds Current Assets Restricted Short-term Investments	1,096,978.15
Add: Certificates of Deposit disclosed as deposits but reported as Current Short-term Investments	2,038,209.44
Add: Certificates of Deposit disclosed as deposits but reported as Current Restricted Short-term Investments	172,320.91
Add: Certificates of Deposit disclosed as deposits but reported as Non-Current Restricted Short-term Investments	300,788.90
Total Investments Per Statement of Net Position	\$ 15,843,662.66

Custodial Credit Risk - custodial credit risk for investments is the risk that the College will not be able to recover the value of its investments in the event of a counterparty failure. The College uses third-party banks' custody and safekeeping services for its investment securities. Securities are held in custody at third-party banks registered in the name of the College and are segregated from securities owned by those institutions or held in custody by those institutions.

TEXAS STATE TECHNICAL COLLEGE (Agency 719)**NOTES TO THE FINANCIAL STATEMENTS****August 31, 2019**

Credit Risk - the College's investment policy seeks to control credit risk by investing in compliance with the policy, qualifying the broker and financial institution with whom the College will transact, sufficient collateralization, portfolio diversification and limiting maturity. The College's investment policy limits the types of investment instruments that may be purchased by the College.

Concentration of Credit Risk - the College's investment policy requires the portfolio to be structured with diversification and securities that have a high credit rating and are liquid in nature. The College places no limit on the amount the College may invest in any one issuer, however, the College manages exposure to concentration of credit risk through diversification.

Interest Rate Risk - as a means of minimizing risk of loss due to interest rate fluctuations, investment maturities will not exceed the anticipated cash flow requirements of the College funds. This is accomplished by purchasing quality, short-to-medium term securities that will complement each other in a ladder or barbell maturity structure. Currently, all investments of the College mature within one year.

Foreign Currency Risk – the College does not engage in any deposit or investment transactions involving foreign currency.

Note 4: Short Term Debt

TSTC does not have any short term debt.

TEXAS STATE TECHNICAL COLLEGE (Agency 719)

Total Long-Term Liabilities	\$ 141,561,707.96	(993,243.21)	32,004,340.83	(11,886,647.00)	160,686,158.58	10,955,991.20	149,730,167.38

Revenue Bonds Payable – Direct Placements

Scheduled principal and interest payments for revenue bonds payable – direct placements outstanding as of August 31, 2019 are as follows:

	Principal	Interest	Total
2020	\$ 71,428.57	\$ 1,785.72	\$ 73,214.29
2021	71,428.57	1,071.43	72,500.00
2022	71,428.59	357.14	71,785.73
Total	\$ 214,285.73	\$ 3,214.29	\$ 217,500.02

See further information on this bond in Note 6, *Bonded Indebtedness*.

Revenue Bonds Payable and General Obligation Bonds Payable

Revenue Bonds payable and General Obligation Bonds payable obligations are described in Note 6, *Bonded Indebtedness*.

Capital Lease – Direct Borrowings

Texas State Technical College has entered into long-term leases for financing the purchase of certain capital assets. Such leases are classified as capital leases – direct borrowings for accounting purposes and are recorded at the present value of the future minimum lease payments at the inception of the lease. The future minimum lease payments under these capital leases as of August 31, 2019 are as follows:

TEXAS STATE TECHNICAL COLLEGE (Agency 719)**NOTES TO THE FINANCIAL STATEMENTS****August 31, 2019**

<u>Year</u>		<u>Principal</u>		<u>Interest</u>		<u>Total</u>
2020	\$	1,329,776.35	\$	255,795.83	\$	1,585,572.18
2021		1,180,140.24		209,398.17		1,389,538.41
2022		1,212,375.11		165,411.07		1,377,786.18
2023		1,243,348.09		120,269.18		1,363,617.27
2024		856,368.73		77,502.03		933,870.76
2025-2026		1,746,041.09		78,958.90		1,824,999.99
Total	\$	<u>7,568,049.61</u>	\$	<u>907,335.18</u>	\$	<u>8,475,384.79</u>

The financing leases are secured by the underlying assets being leased.

Claims and Judgments

TSTC has no outstanding liabilities for claims or judgments as of August 31, 2019.

Employees' Compensable Leave

Full-time State employees earn annual leave from eight to twenty one hours per month depending on the respective employee's years of State employment. The State's policy is that an employee may carry his/her accrued leave forward from one fiscal year to another fiscal year with a maximum number of hours up to 532 for those employees with 35 or more years of State service. Employees with at least six months of State service who terminate their employment are entitled to payment for all accumulated annual leave up to the maximum allowed. The College recognizes the accrued liability for the unpaid annual leave in the Statement of Net Position. This obligation is usually paid from the same funding source(s) from which the employee's salary or wage compensation was paid. For the year ended August 31, 2019, the accrued liability totaled \$5,683,835.38.

The College made lump sum payments totaling \$765,687.08 for accrued vacation and/or compensatory time to employees who separated from state service during fiscal year ending August 31, 2019.

Sick leave, the accumulation of which is unlimited, is earned at the rate of eight hours per month and is paid only when an employee is off due to illness or to the estate of an employee in the event of his/her death. The maximum sick leave that may be paid an employee's estate is one-half of the employee's accumulated entitlement or 336 hours, whichever is less. The College's policy is to recognize the cost of sick leave when paid and the liability is not shown in the financial statements since experience indicates the expenditure for sick leave to be minimal.

Notes and Loans Payable – Direct Borrowings

Notes and loans payable – direct borrowings consists of an amount used to finance a portion of the renovation costs of the 11-1 hangar at the TSTC Waco airport. The loan is secured by all the revenues derived from the airport and two certificates of deposits amounting to \$505,042.00. In the event of a default, the overdue amount, including principal and accrued interest, shall bear interest at a default rate and continue as an obligation until such overdue amount and such interest shall be paid in full. In such an event, TSTC will also have to pay all reasonable out of pocket expenses and internal charges in connection with the collection and enforcement of the loan documents.

TEXAS STATE TECHNICAL COLLEGE (Agency 719)**NOTES TO THE FINANCIAL STATEMENTS****August 31, 2019**

The future debt service requirements for notes and loans payable as of August 31, 2019 are as follows:

<u>Year</u>	<u>Principal</u>	<u>Interest</u>	<u>Total</u>
2020	\$ 120,000.00	\$ 61,419.33	\$ 181,419.33
2021	120,000.00	55,275.71	175,275.71
2022	120,000.00	48,943.20	168,943.20
2023	120,000.00	42,727.19	162,727.19
2024	120,000.00	36,538.39	156,538.39
2025-2029	600,000.00	89,298.70	689,298.70
2030-2034	40,000.00	431.43	40,431.43
	<u>\$ 1,240,000.00</u>	<u>\$ 334,633.95</u>	<u>\$ 1,574,633.95</u>

The above loan has a variable interest rate which equaled 5.18 percent at August 31, 2019. The rate charged is 3.00 percent plus LIBOR.

As of August 31, 2019, TSTC has no unused lines of credit.

Net Pension Liability

See Note 1, *Summary of Accounting Policies*, and Note 9, *Defined Benefit Pension Plan and Defined Contribution Plan*, for more information on the Net Pension Liability.

Net OPEB Liability

See Note 1, *Summary of Accounting Policies*, and Note 11, *Postemployment Benefits Other Than Pensions*, for more information on the Net OPEB Liability.

Note 6: Bonded Indebtedness

Detailed supplemental bond information is disclosed in: Schedule 2A, Miscellaneous Bond Information; Schedule 2B, Changes in Bonded Indebtedness; Schedule 2C, Debt Service Requirements; and Schedule 2D, Analysis of Funds Available for Debt Service.

General information related to general obligation bonds and revenue bonds outstanding as of August 31, 2019, is summarized below.

General Obligation Bonds

Constitutional Appropriation Bonds, Series 2016

- To pay costs of issuance and to acquire, purchase, construct, improve, renovate, enlarge or equip property, buildings structures, facilities, and related infrastructure at some or all of the System's campuses, including (1) replace the chiller plant at the Harlingen campus; (2) replace water and sewer infrastructure at the Waco campus; (3) renovate the third floor of the J. B. Connally Building for System administration at the Waco campus; (4) make HVAC improvements (including certain replacements) at most or all campuses; (5) make communication infrastructure and IT network infrastructure

TEXAS STATE TECHNICAL COLLEGE (Agency 719)

NOTES TO THE FINANCIAL STATEMENTS

August 31, 2019

improvements at most or all campuses; and (6) renovate buildings at some or all campuses including at the Sweetwater campus to expand the welding and diesel programs.

- Issued 04-27-2016
- \$23,680,000.00, all authorized bonds have been issued
- Source of revenues for debt service – General Revenue Funds (HEAF) Appropriations
- Interest rates range between 4.00-5.00 percent
- Future net debt service requirements on General Obligation Bonds is summarized in the table below:

Year	General Obligation Bonds Principal	General Obligation Bonds Interest	General Obligation Bonds Total
2020	\$ 2,180,000.00	\$ 803,350.00	\$ 2,983,350.00
2021	2,285,000.00	691,725.00	2,976,725.00
2022	2,400,000.00	574,600.00	2,974,600.00
2023	2,520,000.00	451,600.00	2,971,600.00
2024	2,655,000.00	322,225.00	2,977,225.00
2025-2026	5,700,000.00	244,525.00	5,944,525.00
Total	\$ 17,740,000.00	\$ 3,088,025.00	\$ 20,828,025.00

Revenue BondsRevenue Financing System Bonds (Clean Renewable Energy Bonds), Series 2008A – Direct Placements

- To repay the principal and interest on the commercial paper notes issued by the Texas Public Finance Authority to finance the acquisition, construction and installation of a wind turbine as a renewable energy project at the System's campus located in Sweetwater, Texas, to achieve energy efficiencies and establish a program to teach and train students to become technicians to operate and maintain wind turbines.
- Issued 12-03-08
- \$1,000,000.00, all authorized bonds have been issued
- Source of revenues for debt service – pledged revenues of the System, subject to the payment of debt service on any prior encumbered obligations.
- Interest rate is 1.00 percent

Revenue Financing System Bonds, Series 2009

- To acquire, purchase, construct, improve, renovate, enlarge or equip property, buildings, structures, facilities, road or related infrastructure at Texas State Technical College campuses, and paying the costs associated with the issuance of the bonds.

TEXAS STATE TECHNICAL COLLEGE (Agency 719)**NOTES TO THE FINANCIAL STATEMENTS****August 31, 2019**

- Issued 12-17-2009
- \$31,555,000.00, all authorized bonds have been issued
- Source of revenues for debt service – all legally available non-General Revenue Funds of the System.
- Interest rates range between 3.00-5.00 percent

Revenue Financing System Improvement and Refunding Bonds, Series 2011

- To refund \$6,355,000.00 of outstanding Series 2002 Revenue Bonds; to finance the costs of acquiring, purchasing, constructing, improving, enlarging and equipping the property and facilities within the System; and paying the costs of issuing the bonds.
- Issued 09-14-2011
- \$26,015,000.00, all authorized bonds have been issued
- Source of revenues for debt service – General Revenue Funds specifically appropriated for debt service and all legally available non-General Revenue Funds of the System.
- Interest rates range between 3.75-5.00 percent

Revenue Financing System Bonds, Series 2011A

- To finance the costs of acquiring, purchasing, constructing, improving, enlarging and equipping the property and facilities within the System and paying the costs of issuing the bonds.
- Issued 12-15-2011
- \$5,160,000.00, all authorized bonds have been issued
- Source of revenues for debt service – all legally available non-General Revenue Funds of the System.
- Interest rates range between 3.00-4.00 percent

Revenue Financing System Improvement and Refunding Bonds, Series 2016

- (1) To finance the costs of acquiring, purchasing, constructing, improving, enlarging and equipping the following projects within the TSTC System: (A) construction of an industrial technology center associated with the System's Abilene campus, (B) Phase II of the Engineering Technology Center renovation at the System's Harlingen campus, (C) construction of the Fort Bend Campus Building #2 at the System's Fort Bend campus, and (D) purchase and renovation of the North Texas Technology Center at the System's North Texas Campus; (2) to refund \$1,250,000.00 of outstanding Series 2008 Revenue Bonds and \$19,190,000.00 of outstanding Series 2009 Revenue Bonds; and (3) to pay the costs of issuing the bonds.

TEXAS STATE TECHNICAL COLLEGE (Agency 719)

NOTES TO THE FINANCIAL STATEMENTS

August 31, 2019

- Issued 04-28-2016
- \$56,915,000.00, all authorized bonds have been issued
- Sources of revenues for debt service – General Revenue Funds specifically appropriated for debt service and all legally available non-General Revenue Funds of the System.

Future net debt service requirements on Total Revenue Bonds is summarized in the table below:

<u>Year</u>		<u>Revenue Financing Bonds Principal</u>		<u>Revenue Financing Bonds Interest</u>		<u>Total</u>
2020	\$	4,671,428.57	\$	3,377,735.74	\$	8,049,164.31
2021		4,721,428.57		3,152,821.45		7,874,250.02
2022		4,946,428.59		2,936,007.16		7,882,435.75
2023		4,360,000.00		2,692,625.02		7,052,625.02
2024		4,310,000.00		2,490,887.52		6,800,887.52
2025-2029		24,975,000.00		9,089,006.34		34,064,006.34
2030-2034		20,120,000.00		3,618,156.30		23,738,156.30
2035-2036		7,910,000.00		364,521.89		8,274,521.89
Total	\$	76,014,285.73	\$	27,721,761.42	\$	103,736,047.15

Advance Refunding Bonds

Refunded \$1,250,000.00 of Revenue Bonds, Series 2008 and \$19,190,000.00 of Revenue Bonds, Series 2009:

- Issued Revenue Bonds – Refunding portion of Series 2016 on 04-28-2016
- \$19,330,000.00 – all authorized bonds have been issued. \$1,220,000.00 pertained to the Series 2008 Bonds and \$18,110,000.00 pertained to the Series 2009 Bonds
- Average interest rate of bonds refunded – 4.56 percent combined
- Series 2008 Bonds – 4.45 percent
- Series 2009 Bonds – 4.56 percent
- Net proceeds from Refunding Portion of Series 2016 – \$22,902,819.87 – after payment of \$236,971.53 in underwriting fees, issuance and other costs. The net proceeds were used to purchase \$22,902,548.69 of U. S. Government securities, with the remaining \$271.18 held in cash. These net proceeds were deposited in a special escrow account with an escrow agent to provide for all remaining future debt payments on the refunded Series 2008 and Series 2009 bonds.
- Advance refunding of the callable portions of the Series 2008 and Series 2009 Revenue Bonds reduced the System's debt service payments during fiscal years 2016 through 2030 by \$2,105,675.15. Of this amount, a total of \$98,134.72 pertained to the Series 2008 bonds and a total of \$2,007,540.43 pertained to the Series 2009 Bonds.

TEXAS STATE TECHNICAL COLLEGE (Agency 719)

NOTES TO THE FINANCIAL STATEMENTS

August 31, 2019

- Economic Gain - \$1,340,960.00 difference between the net present value of the old and new debt service payments. Of this amount, a total of \$65,385.65 pertained to the Series 2008 bonds and a total of \$1,275,574.35 pertained to the Series 2009 bonds.
- Accounting Gain - \$2,105,675.15 accounting gain resulted from the advance refunding. Of this amount, a total of \$98,134.72 pertained to the Series 2008 bonds and a total of \$2,007,540.43 pertained to the Series 2009 bonds.

Pledged Future Revenues

GASB Statement No. 48 *Sales and Pledges of Receivables and Future Revenues and Intra-Entity Transfer of Assets and Future Revenues*, makes a basic distinction between sales of receivables and future revenues, on the one hand, and the pledging of receivables or future revenues to repay a borrowing (a collateralized borrowing), on the other. The following table provides the pledged future revenue information for TSTC revenue bonds:

Pledged revenue required for future principal and interest on existing revenue bonds (1)	\$103,736,047.15
Term of commitment year ending August 31 (2)	2036
Percentage of revenue pledged (3)	100%
Current year pledged revenue	\$ 61,683,221.79
Current year principal and interest paid	\$ 8,039,253.59

Pledged revenue sources: Business-type activities – tuition and fees, auxiliary enterprises, sales and services of educational activities, contracts and grants for debt service retirement, and interest and investment income.

(1) Schedule 2C.

(2) Year of final revenue bond maturity.

(3) For gross pledge, this is 100 percent (gross pledged revenue divided by gross pledged revenue). See Schedule 2D.

TEXAS STATE TECHNICAL COLLEGE (Agency 719)

NOTES TO THE FINANCIAL STATEMENTS

August 31, 2019

Note 8: Leases**Operating Leases**

Included in the expenditures reported in the Matrix is \$2,359,591.92 for rents paid or due under operating lease obligations. The leases have various maturities ranging from 2 to 25 years. Future minimum lease rental payments under non-cancellable operating leases having an initial term in excess of one year are as follows:

<u>Year</u>	<u>Amount</u>
2020	\$ 1,863,199.16
2021	316,069.55
2022	216,893.55
2023	218,283.67
2024	78,357.00
2025-2029	381,665.00
2030-2034	381,665.00
2035-2036	152,666.00
Total Future Minimum Lease Rental Payments	\$ 3,608,798.93

Capital Leases

TSTC's long-term capital leases are finance-type leases, therefore classified as Capital Lease Obligations – Direct Borrowings, with the implementation of GASB 88, *Certain Disclosures Related to Debt, including Direct Borrowings and Direct Placements*. See Note 5, *Long-Term Liabilities*, for disclosures relating to finance-type capital leases.

Note 9: Defined Benefit Pension Plan and Defined Contribution Plan**Teacher Retirement System (Defined Benefit Pension Plan)**Plan Description

TSTC participates in a cost-sharing multiple-employer defined benefit pension that has a special funding situation for certain employers whereby the State contributes to the plan on behalf of those specific employers. The College is not one of those employers and is therefore not subject to the special funding situation provisions of GASB 68. The plan is administered by the Teacher Retirement System of Texas (TRS). It is a defined benefit pension plan established and administered in accordance with the Texas Constitution, Article XVI, Section 67 and Texas Government Code, Title 8, Subtitle C. The pension trust fund is a qualified pension trust under Section 401(a) of the IRC. The Texas Legislature establishes benefits and contribution rates within the guidelines of the Texas Constitution. The pension's Board of Trustees does not have the authority to establish or amend benefit terms.

All employees of public, state-supported educational institutions in Texas who are employed for one-half or more of the standard work load and who are not exempted from membership under Texas Government Code, Title 8, Section 822.002 are covered by the College.

TEXAS STATE TECHNICAL COLLEGE (Agency 719)

NOTES TO THE FINANCIAL STATEMENTS

August 31, 2019

Benefits Provided

TRS provides service and disability retirement, as well as death and survivor benefits, to eligible employees (and their beneficiaries) of public and higher education in Texas. The pension formula is calculated using 2.3 percent (multiplier) times the average of the five highest annual creditable salaries times years of credited service to arrive at the annual standard annuity except for members who are grandfathered, the three highest annual salaries are used. The normal service retirement is at age 65 with 5 years of credited service or when the sum of the member's age and years of credited service equals 80 or more years. Early retirement is at age 55 with 5 years of service credit or earlier than 55 with 30 years of service credit. There are additional provisions for early retirement if the sum of the member's age and years of service credit total at least 80, but the member is less than age 60 or 62 depending on date of employment, or if the member was grandfathered in under a previous rule. There are no automatic post-employment benefit changes; including automatic cost of living adjustments (COLAs). Ad hoc post-employment benefit changes, including ad hoc COLAs can be granted by the Texas Legislature as noted in the Plan description above.

Contributions

For the fiscal year ended August 31, 2019, TSTC's contributions recognized by the plan were \$853,836.00. The contribution rates are based on a percentage of the monthly gross compensation for each member. The contribution requirements for the state and the members in the measurement period are presented in the table below:

	TRS Plan
Employer	6.8%
Employees	7.7%

Contribution requirements are established or amended pursuant to Article 16, section 67 of the Texas Constitution which requires the Texas legislature to establish a member contribution rate of not less than 6 percent of the member's annual compensation and a state contribution rate of not less than 6 percent and not more than 10 percent of the aggregate annual compensation paid to members of the College during the fiscal year. Texas Government Code section 821.006 prohibits benefit improvements, if as a result of the particular action, the time required to amortize TRS' unfunded actuarial liabilities would be increased to a period that exceeds 31 years, or, if the amortization period already exceeds 31 years, the period would be increased by such action.

Pension Liabilities, Pension Expense, and Deferred Outflows of Resources and Deferred Inflows of Resources Related to Pensions

At August 31, 2019, the College reported a liability of \$13,950,945.00 for its proportionate share of the net pension liability. The net pension liability was measured as of August 31, 2018 and the total pension liability used to calculate the net pension liability was determined by actuarial valuations as of that date. The College's proportion of the net pension liability was based on its contributions to the pension plan relative to the contributions of all the employers and non-employer contributing entity to the plan for the period September 1, 2017 through August 31, 2018. At August 31, 2019, the College's proportion was 0.025%, which was a decrease of 0.013% from its proportion measured as of August 31, 2018.

For the year ended August 31, 2019, the College recognized pension expense of \$527,357.00. At August 31, 2019, the College reported deferred outflows or resources and deferred inflows of resources related to pensions from the following sources:

TEXAS STATE TECHNICAL COLLEGE (Agency 719)

NOTES TO THE FINANCIAL STATEMENTS

August 31, 2019

	<u>Deferred Outflows of Resources</u>	<u>Deferred Inflows of Resources</u>
Difference between expected and actual experience	\$ 86,959.00	\$ 342,301.00
Changes of assumptions	5,029,988.00	157,187.00
Net difference between projected and actual investment return	-	264,709.00
Change in proportion & contribution difference	612,091.00	5,390,673.00
Contributions subsequent to the measurement date	692,073.00	-
Total	\$ <u>6,421,111.00</u>	\$ <u>6,154,870.00</u>

At August 31, 2019, the College reported \$692,073.00 as deferred outflows of resources related to pensions resulting from the College contributions subsequent to the measurement date that will be recognized as a reduction of the net pension liability in the year ending August 31, 2020.

Other amounts reported as deferred outflows and inflows of resources related to pensions will be recognized in pension expense as follows:

	<u>Pension Expense Amount*</u>
2020	\$ 40,097.00
2021	(516,944.00)
2022	(593,873.00)
2023	272,322.00
2024	260,306.00
Thereafter	112,260.00
	\$ <u>(425,832.00)</u>

* Positive amounts indicate increase in pension expense; negative amounts indicate decrease in pension expense.

TEXAS STATE TECHNICAL COLLEGE (Agency 719)

NOTES TO THE FINANCIAL STATEMENTS

August 31, 2019

Actuarial Assumptions*

The total pension liability in the August 31, 2018 actuarial valuations was determined using the following actuarial assumptions:

	TRS Plan
Actuarial valuation date	August 31, 2017 rolled forward to August 31, 2018
Actuarial cost method	Individual entry age normal
Amortization method	Level percentage of payroll, floating
Asset valuation method	Market value
Actuarial Assumptions:	
discount rate	6.91%
investment rate of return	8.00%
long-term expected rate of return	7.25%
municipal bond rate as of August 2018	3.69% **
inflation	2.30%
salary increase	3.05% to 9.05% including inflation
Mortality	
active	90% of the RP 2014 Employee Mortality Tables for males and females with full generational mortality using Scale BB.
post-retirement	2018 TRS Healthy Pensioner Mortality Tables with full generation projection using Scale BB.
Ad Hoc Post-Employment Benefit Changes	None

* The assumptions used to determine the ADC are those in effect for the Aug. 31, 2017 actuarial valuation. Due to the lag between valuation data and the measurement date, they may not be the same assumptions used to measure the Net Pension Liability.

** Source for the rate is Fixed Income Market Data/Yield Curve/Data Municipal Bonds with 20 years to maturity that include only federally tax-exempt municipal bonds as reported in Fidelity Index's "20-Year Municipal GO AA Index."

The actuarial assumptions used in the valuation were primarily based on the result of an actuarial experience study for the three-year period ending August 31, 2017 and adopted in July 2018. The mortality rates were based on 90% of the RP 2014 employee Mortality Tables for males and females. The post-retirement mortality rates were based on 2018 TRS Healthy Pensioner Mortality Tables.

Furthermore, assumptions, methods, and plan changes were updated from the prior year's report. The net pension liability increased significantly since the prior measurement date due to a change in the following assumptions:

- the total pension liability as of August 31, 2018 was developed using a roll forward method from the August 31, 2017 valuation;
- demographic assumptions including post-retirement mortality, termination rates, and rates of retirement were updated based on the experience study performed for TRS for the period ending August 31, 2017;
- economic assumptions including rates of salary increase for individual participants were updated based on the same experience study;
- the discount rate changed from 8.000% as of August 31, 2017 to 6.907% as of August 31, 2018;
- the long term assumed rate of return changed from 8.00% to 7.25%; and,
- the change in the long term assumed rate of return combined with the change in the discount rate was the primary reason for the increase in the net pension liability.

TEXAS STATE TECHNICAL COLLEGE (Agency 719)

NOTES TO THE FINANCIAL STATEMENTS

August 31, 2019

There have been no changes to the benefit provisions of the plan since the prior measurement date.

The long-term expected rate of return on plan investments was developed using a building-block method with assumptions including asset class of investment portfolio, target allocation, real rate of return on investments, and inflation factor. Under this method, best estimate ranges of expected future real rates of return (net of investment expense and inflation) are developed for each major asset class. These ranges are combined to produce the long-term expected rate of return by weighing the expected future real rates of return by the target asset allocation percentage and by adding expected inflation. The target allocation and best estimates of geometric real rates of return for each major asset class for the plan's investment portfolio are presented below:

Asset Class	Target Allocation	Long-Term Expected Arithmetic Real Rate of Return
Global Equity		
U.S.	18.00%	5.70%
Non-U.S. Developed	13.00%	6.90%
Emerging Markets	9.00%	8.95%
Directional Hedge Funds	4.00%	3.53%
Private Equity	13.00%	10.18%
Stable Value		
U.S. Treasury	11.00%	1.11%
Absolute Return	0.00%	0.00%
Stable Value Hedge Funds	4.00%	3.09%
Cash	1.00%	-0.30%
Real Return		
Global Inflation Linked Bonds	3.00%	0.70%
Real Assets	14.00%	5.21%
Energy and Natural Resources	5.00%	7.48%
Commodities	0.00%	0.00%
Risk Parity		
Risk Parity	5.00%	3.70%
Total	100.00%	

Discount Rate

The discount rate of 6.907% was applied to measure the total pension liability. The discount rate was based on the expected rate of return on pension plan investments of 7.25% and a municipal bond rate of 3.69%. The projected cash flows into and out of the pension plan assumed that active members, employers, and non-employer contributing entity make their contributions at the statutorily required rates. It is assumed that future employer and state contributions will be 7.76% of payroll. This includes a factor for the rehired retirees and the Non-OASDI surcharge. Based on these assumptions, the pension plan's fiduciary net position and future contributions were sufficient to finance the benefit payments until the year 2069. As a result, the long-term expected rate of return on pension plan investments was applied to projected benefit payments through the year 2069, and the municipal bond rate was applied to all benefit payments after that date.

TEXAS STATE TECHNICAL COLLEGE (Agency 719)

NOTES TO THE FINANCIAL STATEMENTS

August 31, 2019

Sensitivity of the College's Proportionate Share of the Net Pension Liability to Changes in the Discount Rate

The College's proportionate share of the net pension liability has been calculated using a discount rate of 6.907%. The following presents the College's proportionate share of the net pension liability calculated using a discount rate 1% higher and 1% lower than the current rate.

	<u>1% Decrease (5.907%)</u>	<u>Current Discount Rate (6.907%)</u>	<u>1% Increase (7.907%)</u>
College's proportionate share of the net pension liability	\$ 21,055,319.00	\$ 13,950,945.00	\$ 8,199,530.00

Pension Plan Fiduciary Net Position

The pension plan's fiduciary net position is determined using economic resources measurement focus and accrual basis of accounting, which is the same basis used by TRS. Benefits and refunds of contributions are recognized when due and payable in accordance with the terms of the plan. Investments are reported at fair value. Fair value is a market-based measurement, not an entity-specific measurement. TRS utilizes one or more of the following valuation techniques in order to measure fair value: the market approach, the cost approach, and the income approach. More detailed information on the plan's investment policy, assets, and fiduciary net position, may be obtained from TRS' fiscal 2018 CAFR.

Optional Retirement Program (Defined Contribution Plan)

The State has also established the Optional Retirement Program (ORP), a defined contribution plan, for institutions of higher education. Participation in the ORP is in lieu of participation in the TRS Plan and is available to certain eligible employees who hold faculty positions and other professional positions including but not limited to director-level and above, librarians and coaches. The ORP provides for the purchase of annuity contracts and mutual funds and is administered by a variety of investment firms. Employees are immediately vested in their own contributions and earnings on those contributions, and become vested in the employer contributions after one year and one day of service.

The employee and employer contribution rates are established by the Legislature each biennium. Depending upon the source of funding for the employee's compensation, the College may be required to make the employer contributions in lieu of the State. Since these are individual annuity contracts, the State and the College have no additional or unfunded liability for this program. The contributions made by participants (6.65% of annual compensation) and the employer (6.60% of annual compensation, plus 1.90% for employees in service as of September 1, 1995) for the year ended August 31, 2019, is provided in the following table:

Member Contributions	\$ 931,572.00
Employer Contributions	989,228.76
Total	<u>\$ 1,920,800.76</u>

TEXAS STATE TECHNICAL COLLEGE (Agency 719)**NOTES TO THE FINANCIAL STATEMENTS****August 31, 2019****Note 11: Postemployment Benefits Other Than Pensions****Employees Retirement System***Plan Description*

Employees Retirement System (ERS) is the administrator of the State Retiree Health Plan (SRHP or ERS Plan), a cost-sharing, multiple-employer defined benefit OPEB plan with a special funding situation. TSTC participates in this plan.

The Legislature has the authority to establish and amend the benefits and contribution rates within the guidelines of the Texas Constitution. The SRHP's Board of Trustees does not have the authority to establish or amend benefit terms. Benefits are provided to retirees through the Texas Employees Group Benefits Program as authorized by Texas Insurance Code, Chapter 1551.

The employers of SRHP include state of Texas agencies and universities, community and junior colleges, and other entities specified by the Legislature. Employees of state of Texas agencies, colleges, universities and medical schools are members of this Plan.

Detailed information about the SRHP's fiduciary net position is available in a separately issued Comprehensive Annual Financial Report that includes financial statements and required supplementary information. That report may be obtained in writing to ERS at 200 E. 18th Street, Austin, TX, 78701-1400.

Benefits Provided

The SRHP provides postemployment health care, life and dental insurance benefits to retirees. The benefit and contribution provisions of the SRHP are authorized by state law and may be amended by the Legislature. Retirees must meet certain age and service requirements and have at least 10 years of service at retirement to participate in the plan. Surviving spouses and dependents of retirees are also covered by the plan. The plan does not provide automatic cost of living adjustments (COLAs).

Contributions

During the measurement period of 2018 for fiscal 2019 reporting, the amount of TSTC's contributions recognized by the plan was \$2,831,629.82. The employer does not contribute toward dental or optional life insurance. Surviving spouses and their dependents do not receive any employer contribution. The contribution requirements for the state and the members in the measurement period are presented in the table below:

Employer Contribution Rates	
Retiree Health and Basic Life Premium	
Retiree Only	\$ 621.90
Retiree & Spouse	\$ 1,334.54
Retiree & Children	\$ 1,099.06
Retiree & Family	\$ 1,811.70

TEXAS STATE TECHNICAL COLLEGE (Agency 719)

NOTES TO THE FINANCIAL STATEMENTS

August 31, 2019

OPEB Liabilities, OPEB Expense and Deferred Outflows of Resources and Deferred Inflows of Resources Related to OPEB

The College is dependent upon information provided from the ERS Plan for recognizing OPEB liability, deferred inflows, deferred outflows, and expense information. The ERS Plan information provided to the College used retiree data for OPEB reporting in fiscal year 2018. In fiscal year 2019, the ERS Plan information included both active and retiree data for OPEB reporting, therefore increasing the liability significantly.

At August 31, 2019, TSTC reported a liability of \$28,889,603.00 for its proportionate share of the collective net OPEB liability. The non-current portion of the liability was \$28,081,772.00 and the current portion was \$807,831.00. The collective net OPEB liability was measured as of August 31, 2018, and the total OPEB liability used to calculate the net OPEB liability was determined by an actuarial valuation as of that date. TSTC's proportion at August 31, 2019 was 0.10 percent. TSTC's proportion of the collective net OPEB liability was based on its contributions to the OPEB plan relative to the contributions of all the employers and non-employer contributing entity to the plan for the period September 1, 2017 through August 31, 2018.

For the year ending August 31, 2019, TSTC recognized OPEB expense of \$6,249,279.00. At August 31, 2019, TSTC reported deferred outflows of resources and deferred inflows of resources related to OPEB from the following sources:

	<u>Deferred Outflows of Resources</u>	<u>Deferred Inflows of Resources</u>
Difference between expected and actual experience	\$ -	\$ 1,058,422.00
Changes of assumptions	-	10,123,706.00
Net difference between projected and actual investment return	13,681.00	-
Effect of change in proportion and contribution difference	29,536,669.00	-
Contributions subsequent to the measurement date	36,794.00	-
Total	\$ <u>29,587,144.00</u>	\$ <u>11,182,128.00</u>

The \$36,794.00 reported as deferred outflows of resources resulting from contributions subsequent to the measurement date will be recognized as a reduction in the net OPEB liability for the year ending August 31, 2020.

Amounts reported as deferred outflows and inflows of resources related to OPEB will be recognized in OPEB expense in the following years:

	<u>OPEB Expense Amount</u>
2020	\$ 3,577,069.00
2021	3,577,069.00
2022	3,577,069.00
2023	4,500,823.00
2024	3,136,189.00
	\$ <u>18,368,219.00</u>

TEXAS STATE TECHNICAL COLLEGE (Agency 719)

NOTES TO THE FINANCIAL STATEMENTS

August 31, 2019

Actuarial Assumptions

The total OPEB liability is determined by an annual actuarial valuation. The table below presents the actuarial methods and assumptions used to measure the total OPEB liability as of the August 31, 2018 measurement date.

	SRHP
Actuarial valuation date	August 31, 2018
Actuarial cost method	Entry Age
Amortization method	Level Percent of Payroll, Open
Remaining amortization period	30 Years
Actuarial Assumptions:	
discount Rate	3.96% *
inflation	January 0, 1900
salary increase	2.50% to 9.50%, including inflation
healthcare cost and trend rate	7.30% for FY 2020, 7.40% for FY 2021, 7.00% for FY 2022, decreasing 0.50% per year to an ultimate rate of 4.50% for FY 2027 and later years
aggregate payroll growth	January 0, 1900
retirement age	Experience-based tables of rates that are specific to the class of employee
Mortality	
State Agency Members	
service retirees, survivors and other inactive members	2017 State Retirees of Texas Mortality table with a 1 year set forward for male CPO/CO members and Ultimate MP Projection Scale projected from the year 2017
disabled retirees	RP-2014 Disabled Retiree Mortality with Ultimate MP Projection Scale projected from the year 2014
active members	RP-2014 Active Member Mortality tables with Ultimate MP Projection Scale from the year 2014
Higher Education Members	
service retirees, survivors and other inactive members	Tables based on TRS experience with Ultimate MP Projection Scale from the year 2018
disabled retirees	Tables based on TRS experience with Ultimate MP Projection Scale from year 2018 using a 3-year set forward and minimum mortality rates of four per 100 male members and two per 100 female members
active members	Sex Distinct RP-2014 Employee Mortality multiplied by 90% with Ultimate MP Projection Scale from the year 2014
Ad Hoc Post-Employment Benefit Changes	None

* The source of the municipal bond rate is the Bond Buyer Index of general obligations bonds with 20 years to maturity and mixed credit quality. The bonds' average credit quality is roughly equivalent to Moody's Investors Service's Aa2 rating and Standard & Poor's Corp.'s AA.

The many actuarial assumptions used in the valuation were primarily based on the result of actuarial experience studies performed by the ERS and TRS retirement plan actuaries for the period September 1, 2011 to August 31, 2016 for state agency members and for the period September 1, 2010 to August 31, 2014 for higher education members. The mortality rates were based on the tables identified in the table above.

The following assumptions and other inputs have been adopted since the prior valuation to reflect plan experience and trends as expected by ERS and the actuaries attesting to the results of the valuation:

- demographic assumptions (including rates of retirement, disability, termination, mortality, and assumed salary increases) for higher education members have been updated to reflect assumptions recently adopted by the Trustees from TRS;

TEXAS STATE TECHNICAL COLLEGE (Agency 719)

NOTES TO THE FINANCIAL STATEMENTS

August 31, 2019

- assumed expenses, assumed Per Capita Health Benefit Costs and assumed Health Benefit Cost, Retiree Contribution and expense trends have been updated to reflect recent experience and its effects on our short-term expectations;
- percentage of current retirees and their spouses not yet eligible to participate in the HealthSelect Medicare Advantage plan and future retirees and their spouses who will elect to participate in the plan at the earliest date at which coverage can commence;
- percentage of future retirees assumed to be married and electing coverage for their spouse have been updated to reflect recent plan experience and expected trends; and,
- discount rate assumption was increased from 3.51% to 3.96% to utilize the yield or index rate for 20-year, tax-exempt general obligation municipal bonds rated AA/Aa (or equivalent) or higher in effect on the measurement date.

The only benefit revisions that have been adopted since the prior valuation for retirees and dependents for whom Medicare is not primary is an increase in the out-of-pocket maximum for both HealthSelect and Consumer Directed HealthSelect plans.

Discount Rate

The discount rate that was used to measure the total OPEB liability is the municipal bond rate of 3.96 percent as of the end of the measurement year; as of the beginning of the measurement year, the discount rate was 3.51 percent. Projected cash flows into the plan are equal to projected benefit payments out of the plan. As the plan operates on a pay as you go basis and is not intended to accumulate assets, there is no long-term expected rate of return. ERS' board of trustees adopted an amendment to the investment policy in August 2017 to require that all funds in this plan be invested in short-term fixed income securities and specify that the expected rate of return on these investments be at least 2.4 percent. The investment rate of return used to calculate the projected earnings on OPEB plan investments was 3.51 percent.

Sensitivity of the College's Proportionate Share of the Net OPEB Liability to Changes in the Discount Rate and Health Care Cost Trend Rates

Sensitivity analysis was performed on the impact of changes in the discount rate on the proportionate share of TSTC's net OPEB liability. The result of the analysis is presented in the table below:

Sensitivity of the College's Proportionate Share of the Net OPEB Liability to Changes in the Discount Rate							
		1% Decrease (2.96%)		Current Discount Rate (3.96%)		1% Increase (4.96%)	
College's proportionate share of the net OPEB liability		\$	34,298,680.00	\$	28,889,601.00	\$	24,795,539.00

TEXAS STATE TECHNICAL COLLEGE (Agency 719)

NOTES TO THE FINANCIAL STATEMENTS

August 31, 2019

Sensitivity analysis was performed on the impact of changes in the healthcare cost trend rates on the proportionate share of the College's net OPEB liability. The result of the analysis is presented in the table below:

Sensitivity of the College's Proportionate Share of the Net OPEB Liability to Changes in the Healthcare Cost Trend Rate					
		1% Decrease (6.30% decreasing to 3.50%)	Current Discount Rate (7.30% decreasing to 4.50%)		1% Increase (8.30% to 5.50%)
College's proportionate share of the net OPEB liability	\$	24,465,757.00	\$	28,889,601.00	\$ 34,596,372.00

OPEB Plan Fiduciary Net Position

The OPEB plan's fiduciary net position is determined using economic resources measurement focus and the accrual basis of accounting, which is the same basis used by ERS. Benefits and refunds of contributions are recognized when due and payable in accordance to the terms of the plan. Investments are reported at fair value. The fair value of investments is based on published market prices and quotations from major investment brokers at available current exchange rates. However, corporate bonds in general are valued based on currently available yields of comparable securities by issuers with similar credit ratings. More detailed information on the plan's investment valuation, investment policy, assets, and fiduciary net position may be obtained from ERS' fiscal 2018 Comprehensive Annual Financial Report.

Note 12: Interfund Activity and Transactions

The College experienced routine transfers with other state agencies, which were consistent with the activities of the fund making the transfer, and as a result of various grants and contract activities. Receipt of interfund receivables and repayment of interfund payables will normally occur within one year from the date of the financial statements except for the loan from the State Energy Conservation Office (SECO) for which repayment of the principal and interest will be completed over a period not to exceed 11.75 years. Grant and contract activities are recognized as revenues or expenses on the financial statements.

Interfund balances and activity during August 31, 2019 are as follows:

Name of State Agency	Agency No.	Interfund Receivable	Interfund Payable	Purpose
Current Portion:				
State Energy Conservation Office (General Revenue (01) D23 Fund 2370)	907	\$ -	801,157.54	Loan for energy retrofit projects
Non-Current Portion:				
State Energy Conservation Office (General Revenue (01) D23 Fund 2370)	907	-	2,746,637.97	Loan for energy retrofit projects
Total Interfund Payable per Statement of Net Position		\$ -	\$ 3,547,795.51	

TEXAS STATE TECHNICAL COLLEGE (Agency 719)

The detailed Federal and State Grant Pass Through Information is provided on Schedule 1A – *Schedule of Expenditures of Federal Awards*, and Schedule 1B – *Schedule of State Grant Pass Through From/To State Agencies*, respectively.

Note 14: Adjustments to Net Position

During fiscal year 2019, the correction of a prior period capital asset balance required the restatement of the amount in net position as shown:

Net Position at August 31, 2018 as Previously Reported	\$ 133,861,376.25
Capital Assets Adjustment	(1,386.00)
Net Position at August 31, 2018 as Restated	<u>\$ 133,859,990.25</u>

Note 15: Contingencies and Commitments

At August 31, 2019, two lawsuits and claims involving the College were pending. While the ultimate liability with respect to litigation and other claims asserted against the College cannot be reasonably estimated at this time, such liability, to the extent not provided for by insurance or otherwise, is not likely to have a material effect on the College's financial position.

Amounts received or receivable from grantor agencies are subject to audit and adjustments by such agencies, principally the U.S. government. Any disallowed claims may constitute a liability of the College. The amount, if any, of expenditures that may be disallowed by the grantor cannot be determined at this time, although the College expects any such amounts to be immaterial.

Note 16: Subsequent Events

Subsequent events have been evaluated through the issuance of this report. The College has no subsequent events to report.

TEXAS STATE TECHNICAL COLLEGE (Agency 719)**NOTES TO THE FINANCIAL STATEMENTS****August 31, 2019****Note 17: Risk Management**

The College is exposed to various risks of loss related to torts; theft of, damage to and destruction of assets; business interruption; errors and omissions; employee injuries and illnesses; natural disasters and employee health and accident benefits. Commercial insurance coverage is purchased for claims arising from such matters other than those related to worker's compensation and natural disasters. Settled claims have not exceeded commercial coverage in any of the three preceding years.

Note 18: Management Discussion & Analysis

See introduction for detailed Management Discussion & Analysis.

Note 22: Donor Restricted Endowments

The College is subject to the Uniform Prudent Management of Institutional Funds Act, Chapter 163 of the Texas Property Code. This act provides guidance and authority for the management and investment of charitable funds and for endowment spending by institutions organized for a charitable purpose, including educational purposes. The legal authority for the College to accept gifts, including endowments, is found in Chapter 135 of the Texas Education Code. The College's policy for authorizing and spending endowment earnings is addressed in Statewide Operating Standard No. FA.3.1, Acceptance of Gifts and Bequests.

At August 31, 2019, the College had \$582,506.63 of donor restricted endowments which were classified as Non-Expendable True Endowments on the Statement of Net Position. These endowment funds are invested in cash accounts or certificates of deposits. Per donor restrictions, the investment income earned on these endowments is to be used for scholarship purposes. For the year ended August 31, 2019, the endowments earned \$5,924.05 in investment income.

Note 24: Disaggregation of Receivable Balances

Balances of receivables reported on the Statement of Net Position may be aggregations of different components. GASB Statement 38, *Certain Financial Statement Note Disclosures*, requires that the College provide details in the Notes to the Financial Statements when significant components have been obscured by aggregation.

Accounts receivable at August 31, 2019, is comprised as follows:

Campus Billing	\$	6,136,236.25
Sponsor Receivables		1,695,908.82
Tuition & Fees		(1,614,215.71)
Auxiliary Receivables		360,623.47
Local Grants		500,971.58
Reimbursement from State for Payroll Payable		4,381,213.48
Other		206,123.91
Total	\$	<u><u>11,666,861.80</u></u>

TEXAS STATE TECHNICAL COLLEGE (Agency 719)

TEXAS STATE TECHNICAL COLLEGE (Agency 719)
Schedule 1A - Expenditures of Federal Awards
For the Fiscal Year Ended August 31, 2019

Note 1: Non-Monetary Assistance

Texas State Technical College is the recipient of a federal financial assistance program that does not result in cash receipts or disbursements and is therefore not recorded in the Texas State Technical College fund financial statements. Non-Monetary awards received by Texas State Technical College are included in Schedule 1A and are as follows:
